Get in the mix with DJ Karizma!

Behind the captivating smile and easygoing manner this twenty-something- year old native of Belize has a very insightful mind and a strong determination to succeed. He is secure in the knowledge of his competence and capacity to deliver the flexible sound for which he has gained prominence; becoming an in-demand DJ who has mastered playing for all type of crowds. He is unquestionably a young prodigy.

Born Christopher August on September 18th, 1992, Karizma's career began at the age of 16, playing at the top bars and club in the Caribbean/ Central American Country of Belize. It was at Wingz Belmopan, where he held his first residency and where he gained the foundation for his musical knowledge, technical dj equipment skills and crowd reading skills. He held this residency every Thursday and Friday night (2009-2014) with other private and public bookings almost every weekend as his popularity grew in Belize. DJ Karizma was the first to start a college night movement in Belize where every Thursday night he played urban music of Hip-Hop, Soca, Dancehall, Reggae, Pop and Reggaeton catering to his University of Belize peers at the time. As the Turn It Up Thursdays movement grew, other local DJs began to take notice and wanted to guest DJ. Promoters noticed as well and began bringing international and local artists to Wingz to promote their shows to university students.

By the time the he completed his Accounting Degree at the University of Belize in 2014, he had a wide fan and client base in Belize, and when he wasn't playing live, you could hear his mixes on the radios of locals and even in popular restaurants and bars. Being the ambitious youth he was, he wanted to further his DJ career from just locally. He got the opportunity to attend Canadore College in North Bay, Ontario, Canada and saw this as an opportunity to do just that.

By fall of 2014, he gave up his residency at Wingz and started his international venture as an undergrad in the city of North Bay, Ontario, Canada. The exposure to a different musical culture broadened his knowledge of the Electronic Dance Music Industry, Country Music, and the Urban Radio Industry. Starting from scratch again, he began by playing for all the college parties where he quickly developed a great reputation among Canadore College Students and North Bay Residents. He worked his way up by playing at Local Festivals, the Club on Campus and hotspots around town like The Moose. The highlight of his time in North Bay was opening for Reggae Icon Ziggy Marley and Band, where he represented with his Belize flag proudly. Dj Karizma was on his way to achieving international recognition and status.

Being an international DJ meant knowing versatile music genres, understanding the preference of divergent crowds, age groups and partygoers. As a result, adaptability became the cornerstone of his mixes and play style. His focus, skill and aspiration to perfection soon placed him in high demand on various college campuses and major events across North Bay.

In 2015 after completing his year as an international student, he returned to Belize where he quickly got to work with his broadened musical knowledge. He moved to Belize's #1 tourism destination; Ambergris Caye. On the island he markets himself for mainly private events and destination weddings of international clients. He has new residences at two of the hottest Restaurants and Bars on Ambergris Caye, Nook and The Truck Stop Belize. He still plays for all major yearly events such as Carnival, Costa Maya, Lobster Fest, and Easter, but his focus remains beyond Belize.

In May 2017 he got the opportunity of a lifetime to play in Panama on the hottest Dance Hall Radio Show on WAO97.2 with DJ Bless and MC Killah as well as the Hottest Night Club in Panama City; Piña Calavera. Which was a first for any Belizean DJ. The following weekend he was in Trinidad playing for the end of Semester Parties for all University of the West Indies Student where got to meet and share the stage with a bunch of well known Trinidadian Artists and DJs.

With Belize being both a Central American country and Caribbean country, as well as playing for tourists from all over the globe, DJ Karizma has mastered fusing Caribbean and Latino genres with Top 40 hits, and mainstream chart toppers with underground tracks. DJ Karizma's music caters to different moods and events, be it corporate, weddings, birthdays, club events and carnivals. His approach is multi-faceted and cross-generational. He is truly a man for all occasions.

His popularity continues to increase and he proposes to further enhance his ascendancy through ongoing research, practice and skill perfection. He's proven himself to be versatile in the music business, consistently bridging the gap between Caribbean music and other genres around the world. His next objective break into other market barriers, get into production and develop another aspect of his creativity. He is committed to becoming the best version of himself for the ultimate pleasure and enjoyment of his listening audience.
